PIPENET VISION 1.31 - NEW FEATURES

Do you know that PIPENET VISION supports the way the engineering communities already work?

- 1. The CAD Department prepares a plot plan. This can be imported into PIPENET VISION as a .dxf file.**
- 2. The process engineer or the fire engineer draws the PIPENET VISION schematic on top of this. This is exported back to the CAD Department as a .dxf file.**
- 3. The pipers then draw a proper piping drawings.**
